

### **T-58—Madison Knight, P, PA Chaos (uncommitted)**

Madison is a 5-foot-11 pitcher/infielder who throws in the low 60's and has a great curve that has good movement. She also has a screwball and a drop ball she's fine-tuning. Madison, who goes by the nickname "Mayday," has a strong defensive presence in the circle and makes easy work of ground balls within her reach. When not pitching, she uses her length, ability and athleticism to cover a lot of ground at shortstop. She's been measured with an overhand throwing velocity of 68 mph and a bat exit velocity of 71 mph. Offensively, she's a force as well as she has pop in the bat and her low trajectory exit angle creates trouble for the defense even when she's not clearing the fences. She's helped her 14U team get berths to PGF Nationals, USA Softball JO Cup and the USA Elite Select World Fastpitch Championship this summer so she'll get seen by every major college in the country and will likely have double-digit offers come the end of the summer.
